## NFT MARKET SHARE / STATISTICS

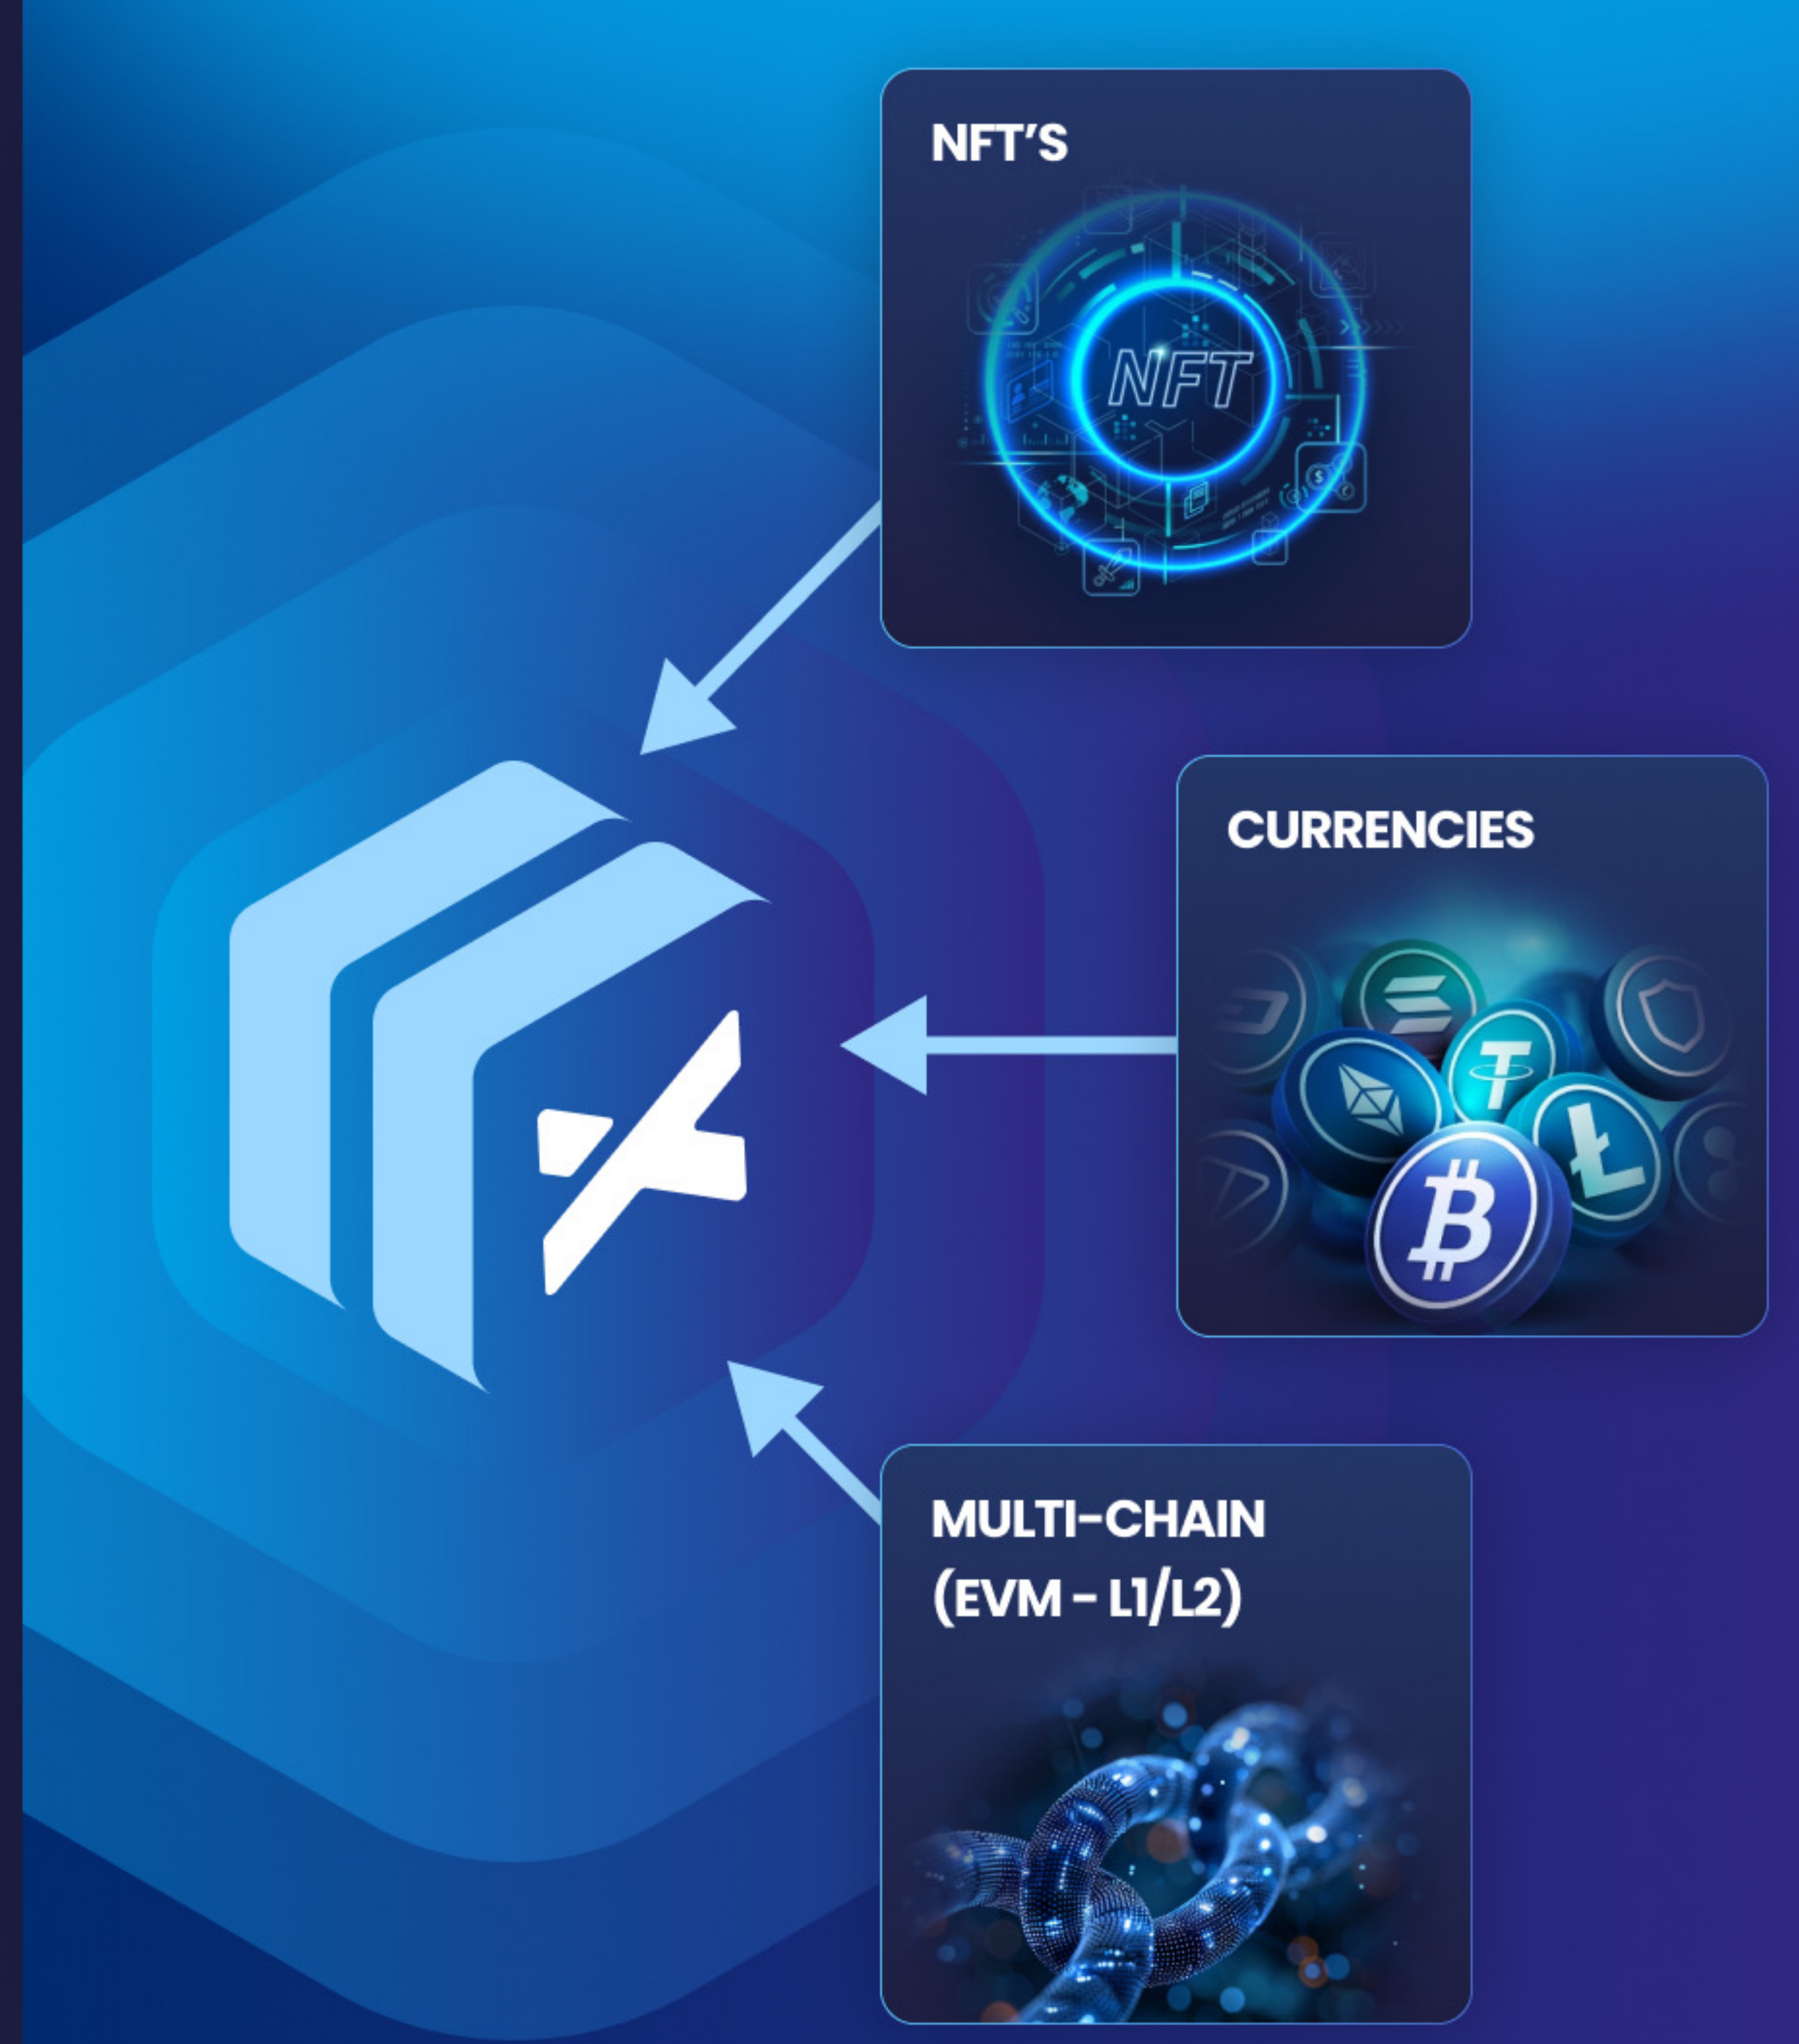

- Currently worth approximately \$22 billion, \$80 billion by 2025
- 220x Growth since 2021
- NFT Sales amount to approximately \$1.8 billion every month
- On average 20,000 NFT's are sold everyday
- Over 50% of NFT Sales cost less than \$200 (Volume/Tracking real problem)
- Over 2 million unique wallet addresses bought/sold an NFT in 2023
- There are currently over 2.6 million NFT's on the blockchain today

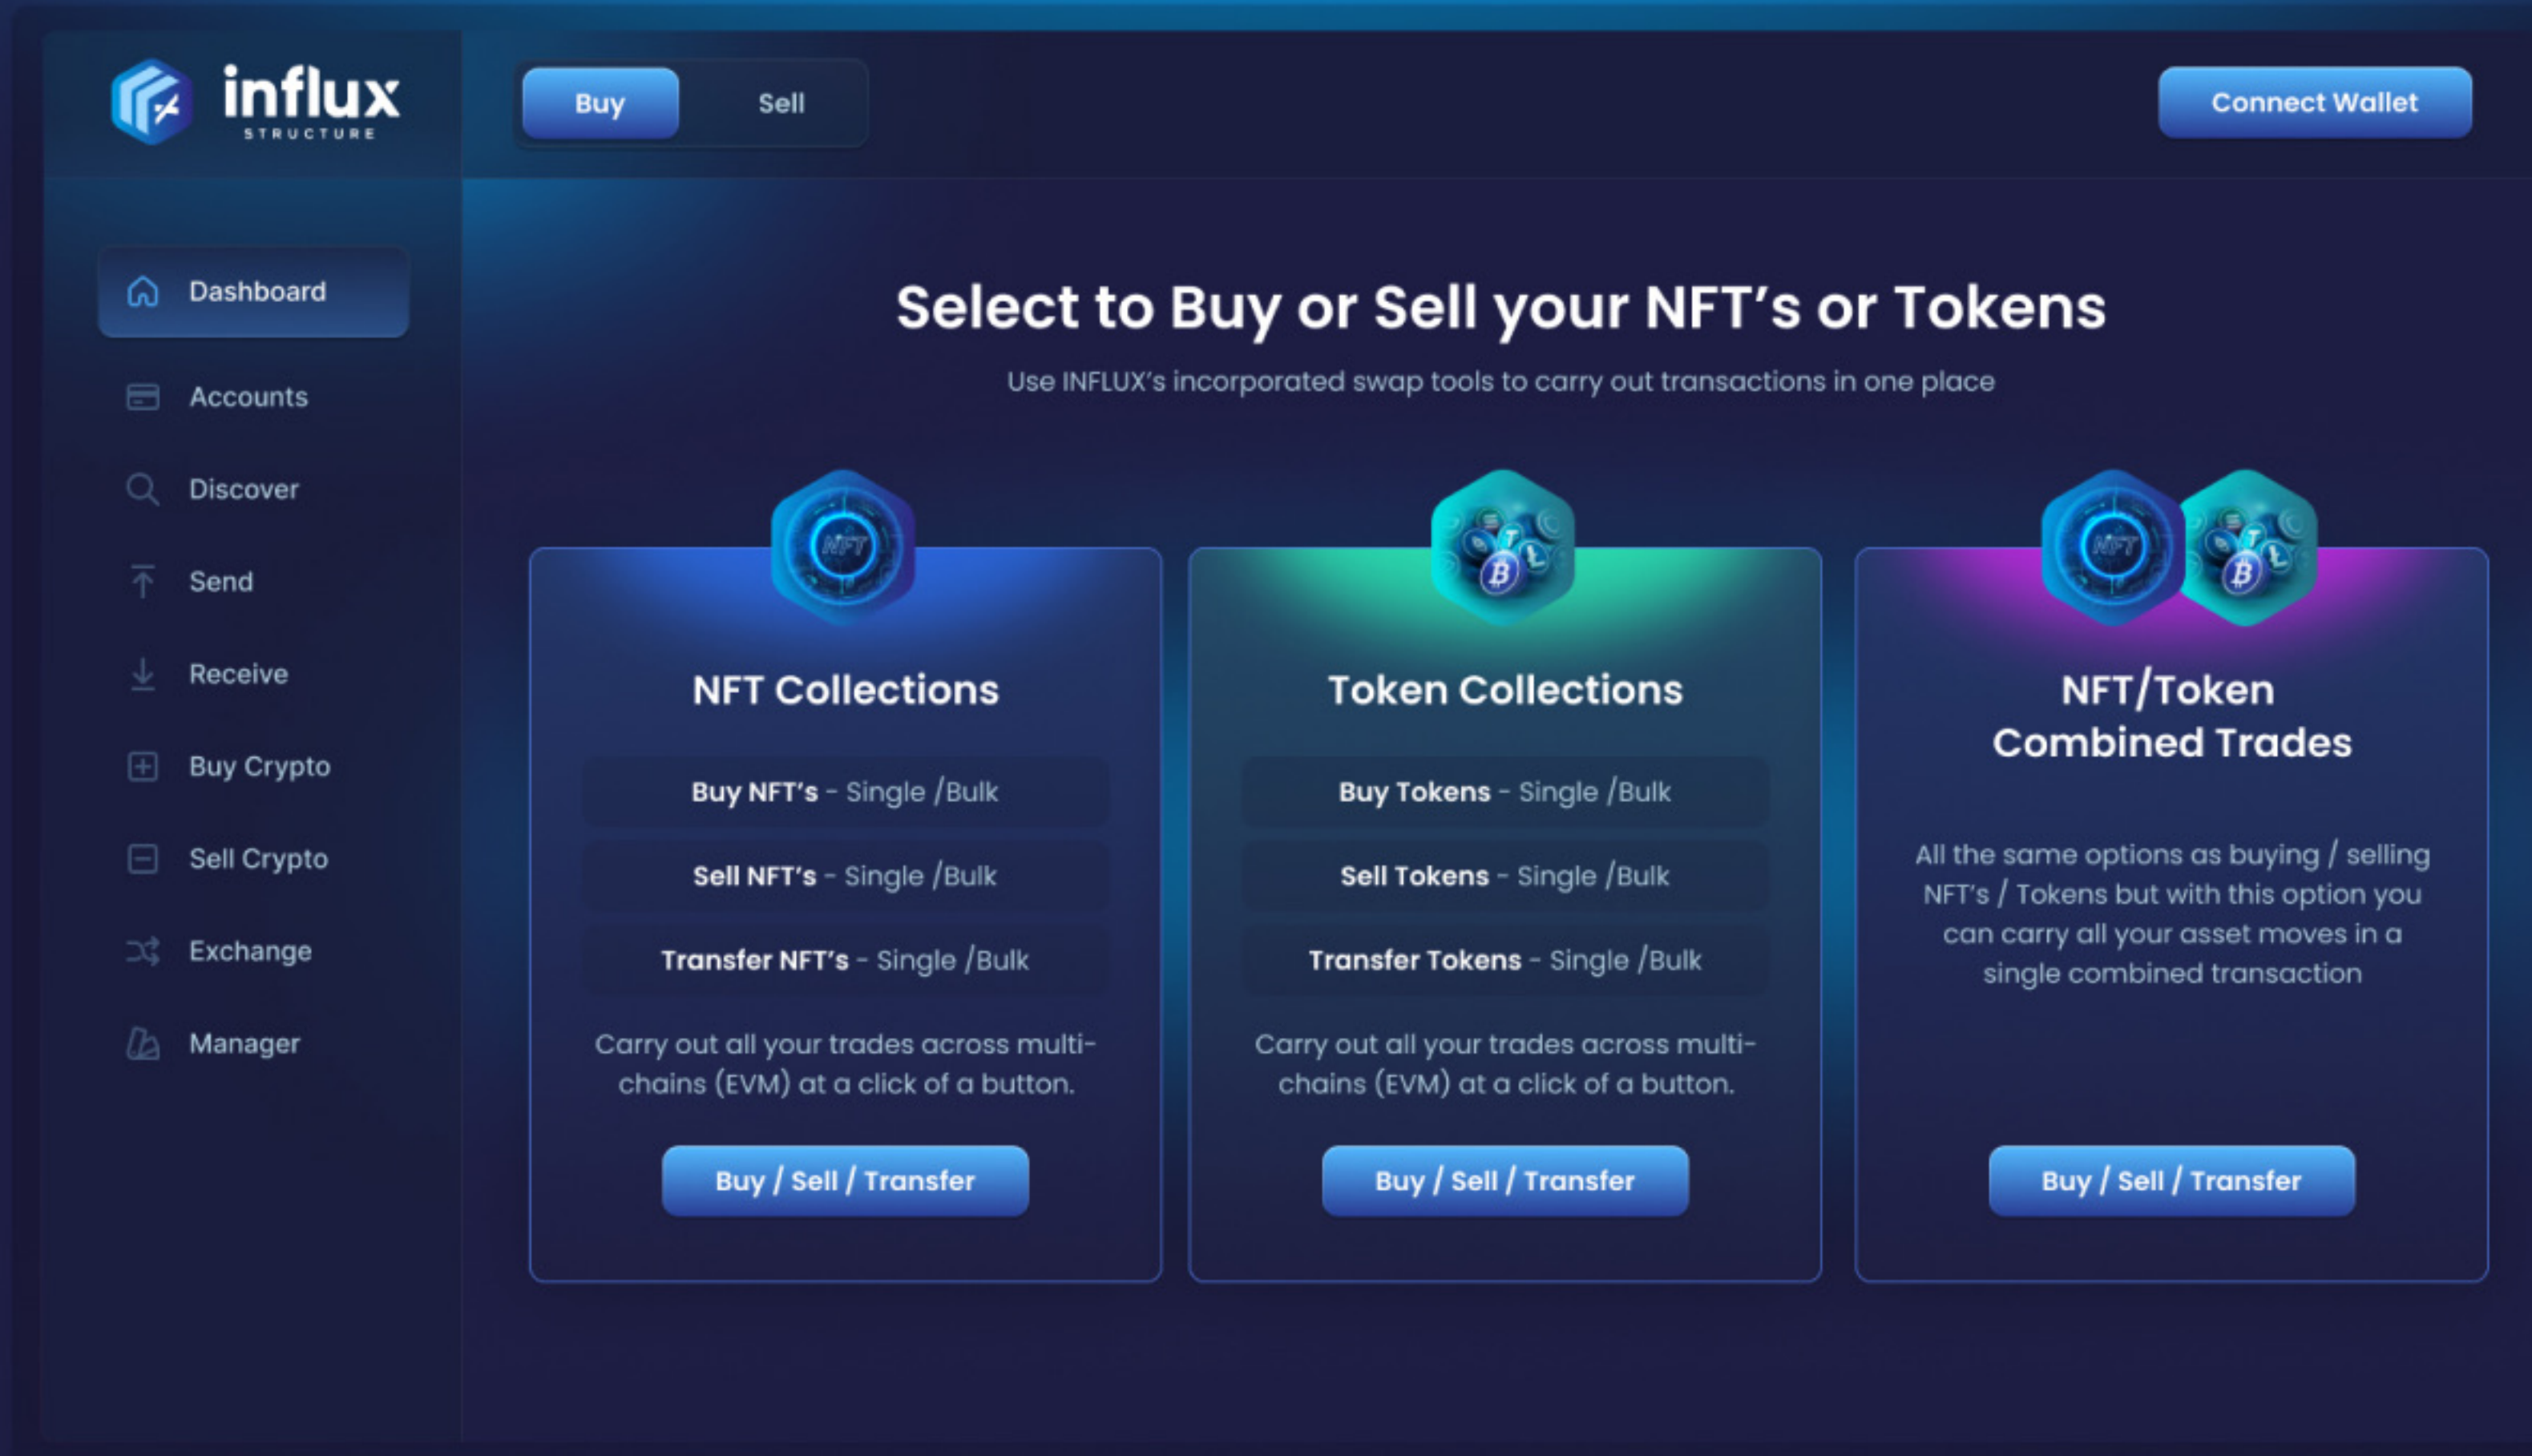

## CRYPTO TOKENS MARKET SHARE / STATISTICS

- There are currently over 20,000+ cryptocurrencies (around 10,000 LIVE)
- The total marketcap of all cryptocurrencies is approximately \$2.5 Trillion
- Daily trading volume approximately \$150 billion
- There are over 400 million cryptocurrency users across the globe
- Total value locked in DeFi is approximately \$90 billion and growing daily
- Approx. 22 million transactions carried out every 24hrs
- Over 500 million wallet addresses created to date

## EVM-CHAINS MARKET SHARE / STATISTICS

- Approximately 5 million transactions carried out just on EVM-chains every 24hrs
- Over 500,000 new wallet addresses created on EVM-chains every 24hrs
- 9 out of 10 devs work on a EVM Chain
- Layer 2's are driving new adoption but there is a real problem managing so many different assets across multiple networks.

Built in Supernova  
Vault Safety Mode

Trade / Manage Entire Portfolio under  
one simple banner / Transaction

## INFLUX VAULT

A safety vault for all holders to lock/burn tokens in for a daily reward/payout in USDT, a function incorporated through the Supernova Incubation process. A new signature move to protect holders in maintaining a source of income, regardless of the projects success.

## PORTFOLIO MANAGER

A new innovation/technology which will allow you to manage all your Tokens/NFT's under one contract, store unlimited amount of Tokens/NFT's where ownership is linked via your original wallet address (Metamask/Trust Wallet etc).

Buy/Sell/Trade all your assets at the click of a button. With a custom UI interface you will no longer need to trade through what we know as traditional Dexes like Uniswap/Pancakeswap. No more dumping charts to exit and the ability to obtain portfolio's at a fraction of the cost (whale groups/big holders options for OTC at a fraction of the cost safely).

- Daily USDT payout from vault
- 1% buy/sell tax
- 25% of all future NFT sales
- 1% of NFT marketplace revenue
- 1% of minted collections
- Advert revenue streams
- Custom VIP airdrops/prizes
- Custom NFT artwork
- Limited Edition collection

## REVENUE SHARE

Access to multiple revenue sources from holding INFLUX NFT's/Tokens: The unique setup allows a variety of income models to be used and will be balanced according to supply and demand. A mixture of lock/burn functions mixed with booster rewards means that there will always be many options to choose from.

## NFT UNIQUE REWARDS

NFT's will give you many advantages vs just holding tokens as this is the fundamental aspect of the ecosystem.

1. Booster reward - 30%/15%/5% (subject to tier) Vs just tokens held
2. 25% of all future NFT sales will go to previous holders (not applicable if just holding tokens)
3. 1% revenue from multiple taxes/fees feeds exclusively to holders
4. VIP airdrops & prizes for all holders (more details to follow)
5. VIP NFT artwork (Tier 1 = Gold, Tier 2 = Silver, Tier 3 = Bronze)

## INFLUX LIMITED EDITION NFT'S

Only 1,000 NFT's to ever be minted (A new vision for NFT's with many unique opportunities)

- Tier 1 = 150x NFT's (Special 30% Booster)\*
- Tier 2 = 350x NFT's (Special 15% Booster)\*
- Tier 3 = 500x NFT's (Special 5% Booster)\*

\*All Booster rewards are based on the tokens you hold, for NFT's to be valued across revenue streams 25% of allocation must be held
